

Radiation Protection (Safe Transport of Radioactive Material) Regulations 2016

GN No. 106 of 2016

Government Gazette of Mauritius No. 38 of 30 April 2016

THE RADIATION PROTECTION ACT

Regulations made by the Minister under sections 19 and 24 of the Radiation Protection Act

1. These regulations may be cited as the **Radiation Protection (Safe Transport of Radioactive Material) Regulations 2016**.

2. In these regulations -

“transport” means the deliberate physical movement of radioactive material, other than that forming part of the means of propulsion, from one place to another.

3. Every person who is authorised to transport radioactive material shall -

(a) ensure that the radioactive material is transported in accordance with the relevant technical requirements of the regulations for the safe transport of radioactive materials specified in the Schedule;

(b) provide such information as the Authority may require to prove that he has complied with these regulations.

4. These regulations shall come into operation on 1 May 2016.

Made by the Minister on 21 April 2016.

SCHEDULE

[Regulation 3]

Regulations for the Safe Transport of Radioactive Material No. SSR-6 (2012 Edition) made by
the International Atomic Energy Agency
